WERSI PEGASUS WING

Amazing Accompaniment, Realdrums, legendary Organ sounds, plus real Drawbars, (9 for Right hand / 7 for Left hand), PC Technology, Incredible Orchestral sounds, optional Pass Pedals, and a 10" TFT Large Touch Screen all make for an Arranger-Keyboard of the Extra-Class!

PRODUCT RANGE

WWW.WERSIDIRECT.COM

WERSI PEGASUS WING: The amazing sensation that is future proof!
WERSI Arranger Keyboards - Digital Sound Sensations!

Every once in a generation, a new easy to use Arranger Keyboard causes a sensation. WERSI has been a world leader for innovative design, exceptional sound quality, high end technology and of course the legendary Real Drawbar sound that only WERSI offers.

Naturally like all top WERSI arranger keyboards, the sound and easy of use is what sets it apart from the competition. No other keyboard offers Real Drawbars, Multi-Sample Dynamic sounds, Sensation Styles, Realdrums, One Touch Settings, CD/DVD-Burner and of course Real Drawbars in one instrument. WERSI has gone even further to include all of these features at the most affordable cost possible.

Whether your musical taste, the Pegasus Wing allows you to sound great instantly! With hundreds of One Touch Settings (4 One Touch Settings per Factory Style and Factory Realdrum). Instant set up of the entire keyboard is a dream come true for many people. Naturally WERSI offers a large registration library for the Pegasus Wing too.

The sounds of the Pegasus Wing come from the OpenArt-System (OAS). OAS uses only the highest quality sound samples and sound synthesis. No less than 5 tone generators produce the beautiful OAS / Pegasus Wing sound library. Incredible Grand Pianos, Sliding Acoustic Nylon Guitars, Breathly Panflutes, Late Night Jazz Saxophones, Rhaspy Shaking brass, Orchestra ensembles, Lush Orchestral and traditional WERSI strings, the most incredible Vocal sounds, Choirs, Opera soloists and many, many more are at your command.

Legacy WERSI sounds such as WERSI Spectra CD-Line sounds (Fairlight, Galaxy, Strings, Golden Gate Sounds, Comet Guitars etc) ensure that the Pegasus Wing carries on the amazing WERSI sound legacy.

The Pegasus Wing features all of the sounds from the Top WERSI OAS models such as the WERSI Louvre GS1000 and Scala GS700 organs. WERSI makes no compromise when it comes to sound.

Over 200 Styles and Realdrums make up the factory accompaniment library. Each style / Realdrum has 4 variations, 4 fills, 1 break, 2 intro and 2 endings. The Styles and Realdrums include a sophisticated auto-accompaniment. 8 Tracks of auto-instrumentation provides the perfect backing for your live performances.

Styles from the WERSI OpenArt-Arranger can be loaded and used in the Pegasus Wing, as can WERSI Realdrum libraries.

Yamaha PRS styles can be loaded into the Pegasus Wing natively with no need for conversion. The worlds largest style library in the world is at your full disposal to purchase and use from Yamaha style vendors.

The accompaniment section uses the new WERSI Dynamic Multi-Sampled Guitars, Accompaniment Sounds and Studio Drum Kits. Studio Drum Kits use the new dynamic live drum sounds / kits that include outstanding Brush, Jazz, Big Band kits as well as the exotic and authentic Hot Cuban, Latin Pop and Arabic drum kits.

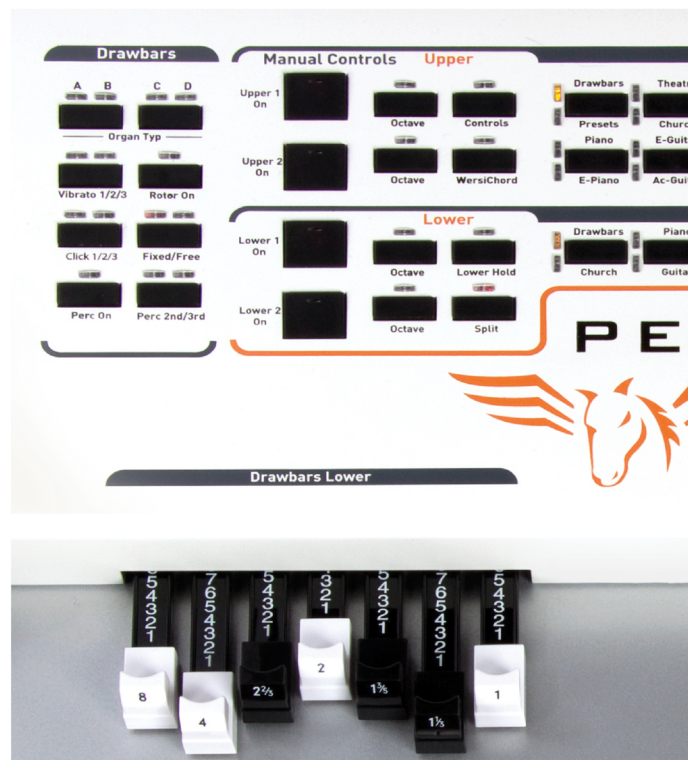

The easy to use controls allow you to quickly change sounds, change accompaniment, change registration and everything else that is possible with the Pegasus Wing. The 10" Touch Screen Display also allows you to quickly access menus, setup your perfect settings and save your settings as a Total Preset (Registration). Some 500 Registrations can be loaded at any one time, with space on the internal hard disk or USB memory stick for thousands more!

PEGASUS WING

PROFESSIONAL KEYBOARD

The 10" Large Touch Screen Display allows the user to choose their perfect settings, make quick adjustments and easy selections for all aspects of the Pegasus Wing!

The Pegasus Wing features two sets of Drawbars. 9 Drawbars for the Right hand and 7 Drawbars for the left hand. Complete with 4 organ types, drawbar Rotor and percussion, you'll be in Drawbar heaven!

The DVD/CD-Burner and 2 x USB ports allow for unlimited external storage / backup of your performances, registrations and more. Of course, you can burn your own audio CD's. Get creative with your recordings!

Also, a whole array of connection possibilities are offered on the rear of the Pegasus Wing. Stereo Audio Outputs, MIDI In/Out/Thru, Universal Foot Controller Inputs for Volume and Controllers as well as WERSI connectors for Pedal Board and WERSI Programmable Volume Pedal.

PRODUCT RANGE WWW.WERSIDIRECT.COM

PEGASUS WING
PROFESSIONAL KEYBOARD

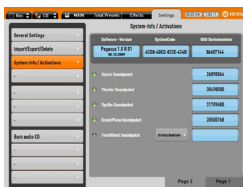

PEGASUS WING DUO 2.0

NO COMPROMISES.... 2 in 1!

The Pegasus Wing Duo offers the luxury and versatility of being both a professional arranger keyboard with great sounds to also being the perfect compact and portable organ!

No other organ offers 76 note keyboards for both manuals or the ability to split both upper and lower manuals!

The sound library offers everything from Grand Pianos, Drawbars, Brass, Solo, Guitars and synth sounds... over 1000 sounds in total!

Our stereo multi sample sounds such as choirs, orchestral sounds are the best in the world.

The Pegasus Wing features great professional features such as settings for Dynamic Curves, Programmable Footswitches, Effects and more. You can also edit you styles, audio styles and MIDI sequences with the onboard easy editors.

You can also use the Yamaha Style library! This is the biggest style library in the world!

Furthermore, VSTi technology is available to use too!

With it's lightweight but robust constructions, you'll find the Pegasus Wing Duo to be your perfect performance partner!

REAL DRAWBARS!

A WERSI organ isn't a WERSI organ without real physical drawbars! 9 Drawbars for the Upper Manual and 7 Drawbars for the Lower Manual... as well as percussion, different vibrato and Rotor effects!

Additionally, the VB3 Hammond Clone is standard and a full VB3 drawbar editor is included so that you can produce your own sounds!

PORTABLE & COMPACT!

The Pegasus Wing Duo is light weight, and compact! It breaks down to be the actual Pegasus Wing, the lower manual, the stand (which comes apart), the pedal board and also the volume pedal etc.

SELECTOR PLUS!

As standard the Pegasus Wing features 2 sounds for the right hand and 2 sounds for the left hand. As an organ, we'll want more sounds for each hand. The Pegasus Wing Duo allows you to utilise the new Selector Plus feature of the Pegasus Wing. It is standard with the Pegasus Wing Duo. It increases the sounds for the upper manual from 2 sounds to 4 sounds and 2 sounds to 3 sounds for the lower manual.

VOLUME PEDAL & MORE

The Pegasus Wing Duo allows you to connect both a WERSI volume pedal and also two additional pedals such as a Piano Sustain pedal or a universal controller that can be easily programmed within the Pegasus Wing.

AUDIO RECORDING TO CD!

You can burn your audio performances to CD with the in built CD Burner. It's extremely easy. Once you've created your recording and are happy to share it with the world, simply open the CD Burner function screen and drag the performances to the CD, press the 'Burn CD' button and hey presto, the Pegasus Wing will create your perfect recording!

SPLIT POINTS

You'll be pleased to know that you can split both the Upper and Lower manuals of the Pegasus Wing Duo! You can produce truly amazing sound combinations!

PEDALS

You can choose from either a 13 note, 17 note or 25 note pedal board. All feature Foot pistons that are programmable for even more easy performance functions!

VERONA GS 500

The amazing small organ with the big sound!

The WERSI Verona is the ideal organ for at home and on the road! The compact stylish design doesn't detract from the big sound though, and naturally the Verona has the acclaimed OAS system at it's heart.

Whether you like Orchestral, Theatre Organ, Drawbars, BigBand or Pop, the Verona delivers on all genres! The Verona features luxury keyboards (semi-weighted 2 x 61 notes) with full touch dynamics. This allows you to make the most expressive music ever, and to be in full command of the beautiful Verona.

The large 10" TFT screen allows you to quickly make adjustments to all sections of the instrument.

Amazing Sounds...

From the incredible OX7 and OAS Drawbars (Yes! Two Drawbar Systems as standard with 9 Drawbars for the Upper Manual and 7 Drawbars for the Lower Manual) to sensational Multi-Sampled Orchestral Lush Strings, Haunting Grand Pianos, stunning Soloists (flutes, Oboes, Clarinets, Harmonicas), the most incredible natural Guitars (that slide, fret, slap), Spanish Guitars, massive collection of world Accordions, stunning Synths, evolving Pads, leads and more!

Easy Play!

Easy Play features are at the heart of the Verona. Over 1000 One Touch Settings registrations (Theatre Organs, BigBand, Orchestral, Choirs etc). There is also space to save up to 2000 of your own registrations (Total Presets).

If that wasn't enough, there are 8 different auto accompaniments from Single Finger to Advanced Chord play. Combine this with the incredible OpenArt-Arranger (Rhythm Section), the styles of the Verona are sensational. Styles and Realdrums (Real Audio Recordings of a Real Drummer), stereo multi-sampled drum sets are also standard, as is the ability to load Yamaha Tyros styles without any need for conversion!

SCALA GS 700

The Sensational Scala GS700

Carrying on the tradition of the WERSI Spectra CD700, The Scala GS700 offers the best of the WERSI OpenArt-System and is perfect for in the home or out on the road. With a stunning design, easy, clear control layout and an incredibly powerful internal loud speaker system, the Scala will have it's play enchanted each time they will play.

The Scala features the latest technological advancements from WERSI including the new 10" TFT Touch Screen, USB bay, Blu-Ray/DVD burner, Hard-disk, multi samples and much, much more.

Easy Play... One Touch Registrations

Over 1000 Registrations allow you to simply 'Press and Play'. The Scala, like the Verona and Louvre boasts a huge library of incredible registrations. Naturally, like the others, there are 2000 User Registration (Total Presets) slots for you to store your own registrations.

The Scala features 'Easy Preset' functions, Preset buttons between the keyboard manuals for easy and quick access to make simple registration changes.

Stunning Accompaniment...

Realdrums and Styles are the standard for the WERSI Scala. Realdrums are tempo variable Studio Audio Recordings of a Real Drummer. You'll be amazed by the clarity of the Realdrums. A world first for accompaniment innovation.

The Styles of the OpenArt-System are both musical and the perfect to accompany any player of any level. With 8 Auto-Accompaniment Tracks per style, it's like having your own full backing band behind you at all times, that naturally you are in control of! Adding new styles has never been easier thanks to the Scala's ability to load Yamaha Tyros styles without any need to convert them first!

Future proof!

The technology of the Scala allows the user to continually upgrade and expand their instrument. WERSI has a history of upgrade innovation for their instruments. Instead of having to buy a new instrument in 5 years time, WERSI release new versions of the OpenArt-System (and sometimes hardware) to keep your instrument constantly modern. New Sounds, Styles, Realdrums and New Functions will be added over the coming years.

LOUVRE GS 1000

SENSATIONAL: The stunning flagship instrument...

A WERSI Louvre GS1000 is the most special instrument. The flagship of the OpenArt-System range, the Louvre GS1000 lifts the player to new music making levels.

Featuring three keyboard manuals (2 x 61 notes and 1 x 76 notes) and a chrome 25 note pedal board, you'll have plenty to choose for sound registration! The incredible keyboard semi-weighted feel gives a sense of luxury only found on WERSI OAS instruments!

Powerful Accompaniment

The Louvre GS1000 features only the best accompaniment. Styles, Realdrums, MP3, WAV, MIDI Sequences and Video.

The OpenArt-Arranger is standard, providing stereo drum kits, incredible styles with 3 intro/ending, 4 fills, 2 x breaks and full auto accompaniment! Also, you can compose your own styles, edit all styles and even load and use Yamaha Tyros styles!

The new Realdrums also set new standards of realism. These accompaniments were recorded live in a professional studio. Playing along with a real drummer has been a dream request from many players for years... now you must hear them to believe them! Naturally they are tempo variable thanks to the WERSI OAS audio slicing technology!

Incredible Sound...

The Louvre is sound loaded. A massive Drawbar and Theatre Organ sound selection, Over 1000 One Touch Registrations covering Orchestral, Symphonic, Choirs, Theatre Organs, BigBand, Latin and Popular Songs are standard for all UK Louvre GS1000 instruments.

There is space for users to save 2000 of their own registrations too! Naturally, you can save thousands more on the large internal hard disk or via the USB ports, or even the CD/DVD/Blu-Ray drive.

Technological Wonder

The Louvre GS1000 is future proof. Your instrument can be upgraded via software updates providing new Sounds, Styles, Realdrums and Functions. There already is over 20 new expansions for the Louvre and other OAS instruments. With so much already at your disposal, the Louvre can grow with your confidence and playing improvements...

Together with the CD/DVD/Blu-Ray burner, Hard disk and large Touch Screen (10"), you can produce high quality recordings, burn CD's, create registration libraries and much, much more!

SOFTWARE EXPANSIONS

WERSI Software Expansion Packs

All WERSI instruments of the OpenArt-System generation are open-ended. By this, we mean that you can upgrade your instrument in both sound and function via software. The software expansions listed below are all available with OAS 7.1 R44 onwards. You can download the latest OAS software from www.wersidirect.com. Some of the expansions listed below are also available for the Pegasus Wing keyboard (As advised in the title).

To order: call WERSI on free phone 0800 084 2013, or order online at www.wersidirect.com via the online shop. IMPORTANT: Please provide your instruments unique H-Code and Hardware Code.

250 New Studio Drum Sounds

The ultimate Drum experience for your OAS instrument! New Drum Sounds, Multi-Sampled Drum Kits will enhance your Accompaniment Rhythm section to new levels of realism!

Best Of Accordions

Incredible world-class Accordion sounds. Tango, Waltzes, Carnival, Folk and Pop music all fuse the amazing sound of the Accordion into their respective genres! The special Accordion control, allows users to create real Accordion sounds and accordion playing styles.

CD-Line Sounds

The WERSI CD-Line (Spectra CD700) is represented with 26 of the best sounds from this famous WERSI digital organ range!

Sacral Sounds (Church Organs) (For OAS 7 & Pegasus Wing)

34 classical organ sounds. These sounds represent the true sound of the church organ. Painstakingly sampled from some of Europe's finest organs.

Franz Lambert Edition 1 (Sounds, Styles, Registrations, Drum-Sets, Drum Sounds & SFX)

Franz Lambert is one of the worlds best loved organists. The famous artist has toured with a WERSI organ for 40 years. Experience the sounds, registrations, styles and more of the WERSI Organ maestro.

Franz Lambert Edition 2 (Sounds, Styles, Registrations, Drum-Sets, Drum Sounds & SFX)

Following the success of Franz Lambert 1 package, WERSI present the Franz Lambert 2 package. More Styles, Sounds, Registrations, Drumsets and SFX in the typical Lambert style.

Galaxis Sounds (WERSI Galaxy)

21 sounds sampled from the WERSI Galaxy analogue flagship organ. The sounds of Curt Prina, Franz Lambert, Mark Shakespear and more enhance your OAS instrument. The sound of yesterday.

Grand Pianos (For OAS 7 & Pegasus Wing)

25 piano sounds capturing the 'electronic' sound of pianos of the past.

Helios Sounds (WERSI Helios)

This sound expansion pack features the Organ Drawbar sounds of the famous WERSI Helios organ. The famous Strings, Brass and Solo Sounds of the Helios are all represented in this sound expansion!

Helios & Comet Sounds (WERSI Helios & Comet Organs)

The 'Best Of' the WERSI Helios and WERSI Comet organs! Including the famous Comet Guitar made popular by Ady Zehnpfennigs record 'Marco Polo'.

Portamento Sounds

The Portamento effect allows you to 'slide' between notes. 21 Sounds feature the Portamento effect for your playing fun!

Theatre Organ Sounds (For OAS 7 & Pegasus Wing)

The Theatre Organ sounds presented in this sound expansion have been sampled from famous Barton and Morton Theatre organs. The Theatre sounds incredible.

World of Organs (For OAS 7 & Pegasus Wing)

The World of Organs include Hammond, Jazz, Gospel, 50's and 60's organ types. All complete with Rotor effects, Keyclick, Drawbar Percussion etc.

Selector Plus

For Verona, Vegas, Xenios, Abacus, Ikarus, EX-1 and GigaPiano owners. Selector Plus allows you to add an additional selector to each manual / pedals. Now you can have 4 sounds on the Upper Manual, 3 sounds on the Lower Manual and 2 sounds on the Pedals! Play like the big ones!

Rhythm Designer

Add a new auto-accompaniment 'arpeggiator / loop player' to your accompaniment section. Over 600 loops featuring harps, pianos and real acoustic guitar strums and electric rhythm guitars will enhance your music to new levels of realism and sonic pleasures. Use as a standalone accompaniment, or combine with Styles and Realdrums.

Sound Factory

The most amazing Sound Editor for OAS... How would you like to mix up to 10 sound samples to make 1 sound? This means that you can play up to 40 sounds on the Upper Manual, 30 sounds on the Lower Manual and 20 sounds on the Pedals! Sound Factory offers colossal sound benefits. Access the massive OAS FX rack...set the values and mix of effects. For the first time you can also control every aspect of an OAS sound. Dynamics, Dynamic Layers, LFO, Full Envelope Controls. Route Controllers and settings for various aspects of sound design for realistic sound play. An Easy Mode and Expert Mode is presented to suit your comfort level.

Multi-Record

Have you ever wanted a fabulous 8 track Audio Recording studio that is easy to use and great in sound? Consider your wish granted with the fantastic Multi-Record expansion. Bounce your 8 track studio recordings to WAV or MP3 when you are finished! Multi-Recording has never been so easy!

Styles 2011

In 2011, WERSI pulled out all of the stops and have provided the incredible new Styles 2011 collection for OAS 7 instruments. As well as over 70 new factory styles, over 200 styles have been re-worked, had new musical auto-accompaniment added (including Real Guitars!). All Styles 2011 styles have 3 intro / endings, 4 fills and 2 breaks! A must have!

World of Synths (For OAS 7 & Pegasus Wing)

Add a real synthesiser to your instrument. 256 new Synth sounds open your instrument further for fun Pop, futuristic Dance / Euro House and more! The new Synth is a must have. Even if you not a fan of synth leads, the beautiful evolving pads will have you hooked!

B4 (2nd version from Native Instruments - OAS Edition)

The incredible and critically acclaimed 'B3' Hammond clone. 120 Sound Presets are included as well as a comprehensive, easy to use Drawbar editor. The B4 works over the real OAS drawbars! You'll be transported back to the B3 heyday in an instant when you play with the B4!

OpenArt-Arranger (OAA)

Featuring a massive Style and Realdrum editor, easy to use virtual panels, Style Creator / Style Composer suite, futuristic Dance / Euro House and more! 30 new OAA styles and the ability to load Yamaha styles (Tyros / PSR) without any need to convert styles.

Theatre Organ Magic Vol.1

40 Registrations covering the classic Theatre Organ. Complete with 'Tremolo' control for the Tremolo chamber of the Theatre Organ. This registration expansion is the only one in the world that allows full 'Theatre Organ' sound control.

Orchestral & Choirs

40 Registrations of fabulous Orchestral Strings, Orchestras, Woodwind, Ensembles, Cathedral Choirs, Opera Singers, Jazz Singers, Boys Choirs and more.

Orchestral & Symphony

40 Registrations showcasing the sound of the Symphony Orchestra and Symphonic ensembles. New Symphonic Strings, Choir and Sacral Church organ tuttis are all covered. More Orchestral beauty is showcased!

Virtuoso Soloists

40 Registrations highlighting the haunting, beautiful and melodic soloist sounds of the OpenArt-System! Super-Articulated Classical Guitars, Concert Woodwind, Real Panflutes, Gypsy Violins, Spanish Guitars and more are at your disposal.

Amazing Pianos

20 Registrations of Amazing Piano sounds. Whether your a New York Steinway fan, Elton John Red Piano kind of player or 80's love ballad power E-Piano enthusiast, all of the classic sounds of the Grand Piano (both Acoustic and Digital) are catered for here!

Panflutes

20 Registrations of haunting, ethereal Panflutes. From James Last Zampona to Tibetan Foothill Panflutes, they're all here! Get lost in the breathy and haunting sound of the Andes, or even drift on the Atlantic Trade Winds with these must have registrations!

BigBand Vol.1

40 Registrations covering the classic sound of the BigBand era. From lush brass ensembles to reedy Glen Miller style sax ensembles, you'll fall in love with the BigBand sound all over again! Absolutely Fabulous!

SongBook Vol.1

600 Registrations for 150 'Classic Evergreen / Popular E-Organ songs'. Love Songs, Ballads, BigBand, Organ Classics are here in Volume 1 of this new series of Registrations. Songbook Vol.1 sets up the Accompaniment / Rhythm Section, Sounds of the manuals, Selectors, Effects and Volumes. You can simply sit and play!

Drawbar Collection Vol.1

31 Registrations Featuring Hammond B3, Klaus Wunderlich, Franz Lambert, WERSI Spectra CD-700 and WERSI Helios Drawbar Sounds - Instruments with WERSI OX7 Drawbars Only (Abacus, Vegas, Verona, Scala & Louvre).

Christmas Collection

Registrations & Styles covering classic Christmas traditional numbers through to Pop hits. Styles 2011 required for this activation. 100 Registrations and 10 New OpenArt-Arranger Styles.

Classic WERSI Collection 1.

Sounds of the WERSI organ at their best... Whether you love the sound of the Helios, Galaxis, Delta, Beta, Spectra or Atlantis (Famous WERSI organs from years past), these registrations fuse the high quality sounds of these organs together. (Requires Best of CD-Line, Galaxy, Helios & Comet).

Classic WERSI Collection 2 - Encounters

Registrations for the beautiful Franz Lambert album 'Begegnung' (Encounters). Covering favorites such as Dreaming Ballerina, Lady In Blue, La Musica, Atlantis & Vila Vita. (Franz Lambert Editions 1 & 2, Best of CD-Line required).
