SONIC OAX500

The new compact 'little brother' in the new exciting WERSI OAX organ range.

Incredible sound at incredible value!

The new WERSI OAX500 from the Sonic range may be the smallest instrument with its impressive 2 x 5 octave manuals and its 17 note pedal board, but it packs an impressive internal speaker system that is both transparent in sound and powerful in output.

Massive sound and style library

Naturally the Sonic OAX500 features the impressive WERSI OAS sound library plus the new exciting SONIC sound library. Add to that the best new styles and Realdrums developed especially for the new SONIC range, you have the best auto-accompaniments in the world at your finger tips!

Easy Play Features

The one touch setting system in the new OAX500 means that you can select any factory style or Realdrum and be presented with a choice of four 'sound to style' presets that instantly setup the instrument for intermediate music making power!

WERSI Chord

Whether you play with single finger or full chords, the OAX500 features the intelligent 'WERSI-Chord' that auto-generates artificial harmonies for your music. It's fabulous.

There are 14 different types of WERSI-Chord for your selection.

SONIC OAX600

An instrument that has music making power at its heart.

76 note Lower Manual & more...

The new Sonic OAX600 moves into new territory for the WERSI SONIC OAX organ range. Featuring an all new cabinet design from WERSI, the new OAX600 incorporates an impressive 76 note lower manual that allows for greater music making possibilities. More split points, more dynamic options, aftertouch on a lower manual (A first for a WERSI organ!) and more.

Add to this, chrome foot pistons that can be freely programmed by the user, you can use the pistons as 'Piano Sustain', Drum fills, effect sound triggers and more.

A 900MB Grand Piano and more...

The Sonic OAX600 like its brothers in the SONIC OAX organ range goes further than any other electronic organ that exists. You want a grand piano sound? Sure, no problem. It's not just any Grand Piano sound though. It's a 900mb grand piano that has been sampled in Germany by a team of musicians and engineers. It's stereo, it's beautiful and it's amazing to play. Naturally there are some 100+ Pianos in the Sonic OAX600. This is an indication of the high end quality of the new Sonic sound quality.

WERSI VOCALIS - £999 (per pair)
The new WERSI OAX600 sounds great with WERSI Vocalis 120 Speakers. Why not add a pair to your order?

Matching Bench also supplied.

LIGHTING SYSTEM
The OAX600 features the upper console lighting system as standard.

OAX
OpenArt-Xtended

SONIC OAX700

The exciting new concert organ from the SONIC OAX range.

Power and control

The stunning new SONIC OAX700 features a power combination of two manuals (76 note lower manual) and a 25 note pedal board in the most incredible chrome finish. Naturally the new SONIC lighting system is standard and the new technological marvels of the new WERSI OAX range will thrill you.

Massive sound and style library

The Sonic OAX700 features the impressive WERSI OAS sound library plus the new exciting SONIC sound library. Add to that the best new styles and Realdrums developed especially for the new SONIC range, you have the best auto-accompaniments in the world at your finger tips!

AUDIO Record & More...

The SONIC OAX700 features an internal audio recorder, sequencer, wave / MP3 player, state of the art technology and an impressive phantom power microphone input (XLR).

Powerful Preset System

The new OAX range allows you to store literally thousands and thousands of your own User Total Presets. Concert performances can be as detailed and easily accessed as you like.

Powerful Editors

Naturally the Sonic features editors for Styles, Realdrums, Sounds, Mappings, Sound Effects, Drawbars, Drum Kits, Footswitches, Digital Effects, Digital Mixer, Inputs and Outputs, VST instruments and more.

SONIC OAX800

An instrument that has music making power at its heart.

2 x 76 Note Manuals..

The new Sonic OAX800 is based upon the WERSI Scala GS700 organ. Keeping the smooth lines and curves of the famous WERSI Scala design, the new OAX800 moves into new territory. The new OAX800 is physically longer and houses 2 x 76 note FATAR keybeds. This means that you have even more ability to create incredible music with all sorts of possibilities with the 16 sounds available to use across the keyboards and pedals!

The OAX800 features 10 SFX buttons, an additional set of percussion drawbars, more physical 'easy' access function buttons and of a DVD / Blu-Ray burner.

Incredible sounds & styles

The Sonic OAX800 naturally incorporates the entire new OAX sound and style library. Whether it's the beautiful strings, new grand pianos, organ sounds or simple solo sounds such as the Horea Panflutes, you have everything you need to easily make the best music arrangements.

The new styles in the OAX800 all have 4 variations, 4 fills, 2 breaks and 3 x intro / endings. All have automatic accompaniment and 4 one touch settings too. The Sonic OAX800 also has the new OAX 'Audio Style' library too, that brings the new generation of WERSI Realdrums to your finger tips.

25 NOTE PEDAL BOARD, PISTONS & MORE
The new WERSI Sonic OAX800 features a 25 note pedal board (finished in chrome) as well as 5 programmable foot pistons, a volume swell pedal with 2 x programmable footswitches and naturally a height adjustable matching bench too.

LIGHTING SYSTEM
The OAX800 features the upper console lighting system as standard as well as the down-lighting for the pedals too.

PERGAMON OAX1000

The exciting new OAX flagship

The Power of Three...

The new flagship from WERSI is the new Pergamon OAX1000. Featuring three manuals, 25 note pedal board, chrome foot pistons, an electronic bench, lighting system, colour changing LED glass music display and more is why the new OAX1000 is the pride of WERSI. One of the new highlights of the new Pergamon OAX1000 is that the instrument features 3 x 76 note manuals.

Maximum Music Making Power

The Pergamon OAX1000 features an incredibly powerful music speaker system internally. Optimal sound output and the features of the new Sonic range mean that you have maximum power at your finger tips for making any and all kinds of music.

Powerful Preset System

The new OAX range allows you to store literally thousands and thousands of your own User Total Presets. Concert performances can be as detailed and easily accessed as you like.

Easy Play

The Pergamon features all of the WERSI 'Easy Play' features such as the 'EASY Mode', One Touch Settings, Sound to Style, Easy Mode Chord Recognition and 'Sheet Music' on display.

The simplified operation of the new instrument means that you'll be able to make great music fast!

You'll love the flexibility of using the Multi-Gesture Touch Display too!

MATCHING ELECTRONIC BENCH
The Pergamon OAX1000 naturally features a matching bench that is adjustable in height. The bench is electronic and a discreet control allows you to move up and down.

BEAUTIFUL DESIGN
Based upon the WERSI Atlantis and WERSI Louvre GS1000 design, the new WERSI Flagship 'Pergamon OAX1000' retains the rolling ocean wave design that made it's predecessors so visually pleasing.

WERSI SPEAKERS

VOCALIS HD 120 SPEAKERS

WERSI present an enriched active monitor loud speaker that outputs the perfect sound for your OAS instrument! The WERSI Vocalis speakers are characterized by a homogeneous character with a sound clarity that is crystal clear. Already, the music industry press have referred the new Vocalis speakers as being comparable with diamonds! Rare and perfect!

The mid and bass range are well drawn with a perfect balance. The ribbon transducer produce the high frequencies meaning that the user and listener receives high resolution sound! All sound transients in the mid and treble range are perfectly produced and put many other competing speaker systems into the shade.
Externally, the WERSI Vocalis boasts a beautiful aesthetically pleasing design.

A well designed column housing, paying homage to WERSI tower speaker design of old. So no matter the setting that the Vocalis is displayed, it will look beautiful. Thanks to the excellent workmanship of the Vocalis speakers they are versatile and also produce excellent home sound resolution for home Hi-Fi, TV and home cinema setups or entertainer and live gigs for other brand of keyboards too. WERSI have done their homework.

SPECIFICATION:
4 woofers with a concave aluminium cone ribbon tweeter (magneto-static)
Crossover Frequency: 2.5 kHz
Frequency range: 35Hz - 28kHz
Amplifier power: 120W RMS, 200W music Integrated limiter
1 x Line In / Parallel Out on XLR combo jacks level control
Dimensions: Height 1090 mm x Width 222mm x Depth 286 mm

TS9000 TOWER SPEAKERS

The legendary WERSI TS9000 Tower Speakers return with a new re-engineered hi-precision audio design in the familiar luxury cabinets courtesy of the new WERSI factory in Hochrhein.

The new high-end WERSI TS9000 speakers are available in Pearl White, High Polish Black and Metallic Black. The speaker features an impressive horn tweeter system for excellent sound clarity and depth. The mid-speaker allows a warm middle frequency response while the bass provides a special 'long throw' effect bass, which means that even in concert halls, the bass isn't lost like on some inferior speaker designs.

Features:
Active (powered with own amps per speaker), Output is 300 Watts - Per speaker (600 Watts Overall!)
3-way speaker system
Special horn tweeter system, 70 Watts each speaker
8" Mid range, 100 W
12" Long throw bass, 300 W
Frequency range: 32 Hz - 25 kHz
1 x Line In / Parallel Out to XLR combo jacks
Volume Level control
Dimensions: 1000mm x 350mm x 360mm mm (Height x Width x Depth)

WERSI UPGRADES

Verona to OAX500 UP

The WERSI Verona can be upgraded to the new OAX500 Up.

Naturally, all panels are matching your existing older Verona organ and the new Sonic OAX500 will also look like a brand new organ, fresh from our factory facility in Germany.

OAX OpenArt-Xtended
UPGRADE-OAS 2 OAX

Scala to OAX800 UP

Older Scala Models with the 2 x 5 octave keyboard configuration can be upgraded to the latest OAX800 UP standard. You have a choice of keeping the 2 x 5 octave manual configuration, or having a 76 note lower manual configuration for an additional surcharge.

OAX OpenArt
UPGRADE-O

The OAX800 UP upgrade allows customers the flexibility of having the latest OAX instrument at a fraction of the cost of a brand new model .

OAX OpenArt-Xtended
UPGRADE-OAS 2 OAX

Louvre to OAX1000 UP

Even the oldest Louvre Models can be upgraded to the latest OAX1000 Up standard. The old 3 x 5 octave manual configuration is replaced with 2 x 5 octave keyboards for the Solo / Upper and 1 x 76 note lower manual. All new metal work / panels etc are included in this option.

The OAX1000UP option for customers with a Louvre with an existing 76 note lower manual is a straight forward like for like upgrade to the new OAX1000UP standard. Featuring the same controls as the WERSI flagship Pergamon!

OAX OpenArt
UPGRADE-O

OAX OpenArt-Xtended
UPGRADE-OAS 2 OAX

OAS TO OAX UPGRADE
(Verona / Vegas / Scala / Louvre)

You can now upgrade your OAS instrument to the specification / functions and sound of the new OAX generation.

What does the upgrade include?

The upgrade includes all new metal work, new internal circuit boards, all new PC parts, new operating system and of course OAX. all OAS parts are replaced.

- All new metal panels to match your instrument.
- New circuit boards and brushed silver buttons.
- New musical hardware parts.
- New PC parts and drives (USB / Blu-Ray / Solid State Disk)
- New 11.6 inch TFT touch display with 16:9 movie resolution.
- New OAX Operating Software (Latest Version)
- English Tutorial DVD. (WERSI Direct Exclusive).
- English User Manual (WERSI Direct Exclusive).
- WERSI Wave 1 / Wave 2 software titles inclusive worth hundreds of pounds.
- 3 Year Warranty.
- Windows 10 (64 bit)
- Lighting System with plexi-glass Music Rest (As of November 2016 onwards).

Optional Extras for old OAS instruments:

- New preset buttons for between the manuals.
- New Keyboard Manuals (if yours are old and discoloured).
- Foot Pistons (5 Chrome / Programmable).

How much will the upgrade cost?

The upgrade is substantially cheaper than purchasing a new OAX instrument.

WERSI LOUVRE (2001-2006 Models)

- Due to the old configuration of 3 x 5 octave manuals, they must be replaced with 2 x 5 octave manuals and 1 x 76 note lower manual for the OAX1000 Up upgrade option. A small surcharge is additional to the standard Louvre to OAX1000 Up upgrade price.

Can the upgrade be done at my home?

At this time, the upgrade will be carried out at our German factory by our expert technicians. If you purchase the upgrade, the pricing includes the WERSI Direct technicians coming to collect your instrument, where it will be driven to the factory in Germany and returned to your home upon completion of the upgrade.

VERONA TO OAX500 UP   £6,799.00
SCALA TO OAX800 UP   £7,499.00
